No. 246.

Crippen Case Continues

TEN THOUSAND DOLLAR MARK EASILY PASSED BY NOON TODAY

Nearly Seven Thousand Collected for Y. M. C. A. Last Night and Several Large Donations Have Been Made—Clock Has Been Placed on Jasper Avenue—Watch the Thermometer Go Up.

The Y. M. C. A. campaign is going merrily on. Greatly enthused over the success of yesterday's campaign which resulted in a collection of \$6,612, the canvassers started out this morning again with the determination to do even better and hasten the journey of the hand around the clock. The number of workers was considerably augmented this morning and many others joining in the enthusiasm and offering their services in the cause. From what can be learned up to noon several fairly large pledges had been secured for \$500, and many others for other respectable amounts. The clock has been moved from the Y. M. C. A. building and is now located over the Burnham-John Co.'s store on Jasper avenue near First street, where the public can keep more in touch with it. The rivalry between the eight teams has begun and great efforts are being made by the competitive outfits to outdo one another. C. E. yesterday having collected \$1,146.

Y. M. C. A. Campaign Booming

CHICAGO CUBS STILL CHEERFUL

Frank Chance Says Cubs Should Have Given Coombs a Bad Beating Yesterday.

CONFIDENCE IN BROWN

"Two Games is the Proper Handicap for the Athletics," Says Pres. Murphy.

Philadelphia, Pa., Oct. 19.—Frank Chance, manager of the Chicago Cubs, last night said: "Brown was going along so well in the early part of the game that I thought we were going to win. Coombs did not show up nearly as well as Bender and I can promise we will give him all the trouble he wants next time he works against us. If we could have hit in pinches today we would have won hands down, for we would have taken all the fight out of the Athletics. The latter had luck enough to last them a whole season. When we get nine bases on balls off a pitcher and can't beat him we ought not to say anything, so I will be content with just predicting that we will play different ball in Chicago."

Charles W. Murphy, president of the Cubs, said: "Two games is just the proper handicap for us to give the Athletics and I bet you we will take the next four straight. We will look different when we have them on our own grounds and if we take two games in Chicago we will win the series sure."

WOULD IT MEAN 'GOTO STATES'?

Senator Melvin Jones Says Reciprocity With States Would Mean an Exodus

OF OUR MANUFACTURERS

They Would Go to Pittsburgh or Chicago Where Steel Was Cheaper.

CANADA VERSUS SIBERIA

Says These Two Countries Will Lead World in Production of Wheat.

The consummation of a proposal to establish headquarters at Edmonton for the northern portion of Alberta is the business which has brought Senator Melvin Jones, of Toronto, president of the Massena-Harris Company to Edmonton. Senator Jones arrived in the city yesterday afternoon from the south in his private car "Commonwealth," accompanied by three of his western managers.

When interviewed by the Capital this morning Senator Jones announced his intentions, stating that included in his plans was the erection of a warehouse on the site now occupied by the company on Howard avenue at the rear of the Merchants Bank Canada, the present building being inadequate. The construction of the building however, cannot be commenced until next year, but in the meantime an office will be secured where the business of the company for Northern Alberta will be transacted. The style and extent of the proposed building has not been decided on.

"Every time I come out west," said Senator Jones, "and I come every year at least, there is some new surprise. The development of the west is marvellous. Westerners themselves do not realize how fast they are advancing."

Senator Jones thinks that Siberia and the Canadian northwest will be the future competitors in the world's grain market.

"Citizens are very much the same in both countries," said Senator Jones, "while Canada has or rather will have the advantage in transportation facilities when her proposed waterways system is complete."

In referring to the tariff controversy at present engaging the attention of the people of both the United States and Canada, Senator Jones by his conversation is apparently opposed to free trade or reciprocity with the republic.

"In the event of such a condition," he said, "many Canadian manufacturers would immediately move to the country tributary to Chicago and Pittsburgh, centres of the steel industry, in order to obtain the advantages of proximity to the market and of

(Continued on Page Five)

IS GOING TO CROSS THE OCEAN IN HIS BALLOON

Walter Wellman Sends a Message by Wireless Stating Cause of Collapse of Balloon and Announcing Intention of Accomplishing Hazardous Feat Yet.

(By wire and Wireless)
On board the Royal Mail Steamer Trent, Oct. 19.—"I am going to cross the Atlantic in a dirigible balloon. Far from discouraging me, my failure has only spurred me to higher ambition. It was our equibrator that disabled the America. That was the one fatal error, despite the fact that the plan had worked out well in ordinary tests and at the time it made the first attempt on the North pole. It will have to be a new type of dirigible that will be used. But even while the America was drifting helplessly and nearly a total wreck above the waters of the Atlantic, Vaniman and myself were talking over what was needed. We know, and intend getting busy as soon as possible." (Signed) WELLMAN.

Was This Plot to Alienate French From Liberals?

Suspicion That Maisonneville's Handing Out of Hanna Letter Is Part of a Deep Laid Political Scheme for Benefit of Tory Party—Bishop Fallon Knows It.

Goderich, Ont., Oct. 19.—The news of the announcement that Premier Sir James Whitney has given walking papers to Maisonneville, secretary to Dr. Reame, Minister of Public Works, did not come as much of a surprise to Bishop Fallon. Mr. Maisonneville has been dismissed for making public a letter which Hon. W. J. Hanna, Provincial secretary, wrote to Sir James, giving an account of what Mr. Hanna judged Bishop Fallon's views are on the bi-lingual school question, following an interview he had with the Bishop of London some months ago at Sarnia.

Mr. Hanna denied emphatically that the letter had found publicity through his office, and promised an investigation. They did not have far to go to find the one responsible for the letter getting out, and the fact that they were able to locate the person so speedily does not cause much surprise here.

Those interested in the affair in this part of the Province felt pretty certain that Mr. Maisonneville was the guilty party, and, in fact, they were prepared to help Sir James and Mr. Hanna to find out the identity of the one responsible if they were unable to do so. Now that they have done it off their own bat, so to speak, those interested have nothing to say about the matter except that when one speaks to them about it they wear a sort of "I am just what I expected" expression.

If all that one hears can be believed, this is not the first time Mr. Maisonneville has "leaked news," and it is said that on more than one occasion he has been the originator of news items in papers in Toronto, Montreal, and Detroit, troubling Bishop Fallon. The present trouble, which has assumed

(Continued on Page Five)

HAD TO PAY JUST \$300 DUTY ON EXPERT POTTER'S PLANS

The reports of Alexander Potter, C. E., of New York city, on the sewage and waterworks systems is in the hands of the city commissioners and will be discussed at their meeting this afternoon. The reports came through the customs where duties to the extent of \$300 was imposed, based on the valuation of Mr. Potter. They consist of a large roll of plans five feet long and about four inches in diameter, valued at \$1,000, as it would cost that much in Mr. Potter's estimation to replace them, and a packet containing the typewritten report, large and bulky, representing \$200 worth of labor.

The commissioners will endeavor to obtain a refund of some of the duty paid by making an estimate themselves of the cost of replacing. They have a feeling that Mr. Potter's estimate is hardly conservative.

The Standard Coal Company when interviewed by the Capital this morning said that their price was \$4 per ton and had been so for several months. Things were running smoothly and they did not anticipate any change in price this winter.

The Humboldt Coal Company said that the price of their coal had been \$4 since the time of the exhibition and they did not see any prospect of a change. The same was true of almost all the companies except E. C. Dohell and Company, who when asked by the Capital over the phone what the price of their coal was, asked if the Capital wanted to buy any. On receiving the answer "No," they refused to say what their price was.

The coal in itself is only fit for

CRIPPEN STILL LOOKS JAUNTY

Juryman Fainted and Trial Was Interrupted—Crippen Laughs During Interval.

SHOWED KEEN INTEREST

The Doctor Gazed With Interest at Exhibits of Human Remains in Jars.

DEW GAVE HIS EVIDENCE

Repeated Story of Chase Across Ocean and Capture of Fleeing Couple.

(Canadian Associated Press.)

London, Oct. 19.—At the resumption of the Crippen trial today, Crippen stepped slightly into the dock, as smartly groomed as yesterday. Inspector Dew was the first witness and repeated the already twice told story of his friends of Belle Elmore consulted him; his interview with Crippen and the latter's courteous reception of him, showing him all over the house, of how on his second visit, finding bricks in the floor of a coal cellar somewhat loose, he pried them up, removing the clay with a spade, and a few inches down found human remains. Dew briefly told of Crippen's flight, his chase across the ocean and the confrontation of Crippen on Montrose.

"I am not sorry," said Crippen, "the anxiety has been much." Dew repeated about the finding of jewelry, of Crippen's statement that LeNeve knew nothing about it, saying she had been his only comfort these last three years.

Tobin subjected Dew to a lengthy and searching cross-examination. "Did Crippen seem at all anxious or worried, when showing you the cellar?"

"He was perfectly cool, showing no alarm or fright."

Tobin put a series of questions with the object of getting from Dew a statement that the floor of the cellar had apparently been undisturbed for years.

While Dew was being questioned a juryman fainted, his collapse being preceded by alarming guttural sounds. Proceedings were at once suspended and Dr. Wilcox, a Home Office expert, attended him, taking him at once out of the room. The judge then asked Wilcox to confer with him. Crippen seemed keenly interested in all this and asked the warden when he was going to happen. At the warden's reply Crippen smiled amiably. One of the doctors who examined the juryman informed the judge that he had fainted from a fit the result of indigestion, but he thought he would be all right in an hour.

Proceedings accordingly were adjourned.

The juryman having entirely recovered the trial was resumed.

Dew, answering a question by Tobin, said he believed Crippen had left no debt behind when he fled.

Re-examined Dew as to what was Crippen's demeanor during the voyage from Canada.

"Perfectly cool," said Dew. "He did not appear at all disquieted, his manner being exactly as when I saw him first in July."

Professor Pepper said that the remains were human, those of a stout man. Dissection had been done by some one skilled in dissection of human or at least of the manual body. Remains had been buried four to eight months. It was quite impossible that they be buried as far back as 1905, as he had found with the remains a fair eight inches in length, being the hair of a female, dark brown at the root and a lighter brown foremost part.

During Pepper's recital of the gruesome details, Crippen listened attentively, gazing intently through his convex gold rimmed spectacles at the human exhibits preserved in jars.

"Continuing, Pepper said that there

(Continued on Page 5)

VOTE \$2,500 FOR NEW CHURCH SITE

Toronto Methodist Mission Board Votes Money for Church in Norwood.

OFFICERS RE-ELECTED

Superintendents for Various Mission Fields Appointed—Other Business Was Done.

Toronto, Ont., Oct. 19.—The Toronto Methodist Mission board at the afternoon session re-elected the following officials on the suggestion of Rev. James Allen, general secretary: Rev. B. C. Manning, assistant secretary of the Home Department; Rev. O. Darwin, superintendent of Saskatchewan missions; Rev. T. C. Buchanan, superintendent of Alberta missions; Rev. Dr. J. H. White, superintendent of British Columbia missions; Rev. T. Marshall, superintendent of missions in the Maritime provinces. Mr. S. R. Parsons was elected deputy-treasurer of the general board of missions.

The home committee in reporting recommended that \$2,500 be granted for the erection of an institution at the church at Belleville, Crows Nest Pass, that \$6,000 be appropriated for the erection of a kindergarten institute in Winnipeg on condition that the mission board of that city raise a similar amount; that \$2,500 be appropriated for the purchase of a church site at Edmonton for work among the Anishinabes, and that \$11,000 be granted towards church work in New Ontario. The report was adopted.

MARRIED A MINUTE, GAINS BIG FORTUNE

Woman Adversely for Temporary Husband—Paid Him Hundred Dollar Bill.

UNDER A PECULIAR WILL

She Had to Marry Before Getting Fortune—Left for Vienna—To Be Divorced.

Washington, D.C., Oct. 19.—Many candidates for the hand and the \$200 of Eugenia Sauer, who advertised under the name of Eugenie Adams for a temporary husband, failed of consideration today, because they were not here in person. Miss Sauer, looking over a dozen candidates, chose H. O. Brown, a bachelor, and building wrecker by occupation.

Miss Sauer revealed her real name five hours later when she obtained a marriage license. Within another half hour the couple had been married by Chief Justice Bundy of the municipal court. As the ceremony was completed the stakeholder handed two \$100 bills to Mr. Brown and Mrs. Brown gave him a cordial hand shake and this farewell:

"Good-bye, Mr. Brown. Thank you for accommodating me. I wish you a long and happy life." Mrs. Eugene Sauer Brown with her marriage certificate hurried out of the court house saying she intended to take the next train for New York to sail for Vienna and claim the fortune left her by an eccentric uncle whose

MR. WOODS TO ENGLAND

Will Represent Alberta in C. P. R. Land Tax Case Before Privy Council

Mr. Sidney T. Woods left this morning by the G. T. P. en route for England to represent the C. P. R. at the second sitting of the C. P. R. taxation case. Mr. Woods was in England in the spring when the case first came into court. The case was then adjourned after hearing some of the evidence, and will be continued in the beginning of November. The case, it is expected will last some time, and Mr. Woods is not expected back in Edmonton for several months.

CAUSES MUCH TALK.

Typhoid Scare in Strathcona Has Resulted in Some Investigations.

Whether the typhoid epidemic in Strathcona is a thing of the past or not it yet arouses interest and keen discussion. At last night's meeting of the council several of the aldermen commented on the widespread talk that had caused on both sides of the river. While the matter was referred to the board of health and the medical health officer the members of the council took it upon themselves to comment on the careless way in which the street refuse is dumped on the streets and the scavengers dispose of the garbage of the city. It was the general feeling of the meeting that no precaution should be neglected which might lessen the fever.

The cases in the hospital and in charge of the doctors are all progressing favorably and no deaths have occurred in the last two days.

COME FROM AFAR TO LIVE IN ALTA.

John Byrne, a weighman from England, arrived with his family in Edmonton this morning to meet Peter Scanlon, a friend coming from the gold fields of Alaska, that they may begin farming in Alberta together. Byrne has practically never been out of sight of the empire's hub, while Scanlon comes from the wilds of the far north. But it Scanlon is only as capable as Byrne looks they should get on well together. Byrne's family, with the exception of one, are all of a self-supporting age and though it is late in the season to begin operations they are going to start work at once.

WOULD HE GET YOUR MONEY?

Those who have not had actual experience with men who manipulate get-rich-quick schemes are bound to wonder just what kind of individuals they are who are able to wheedle the money out of people's pockets with propositions which on their very face are of most doubtful character. Montreal and vicinity is just now mourning the loss of some two million dollars which it entrusted to a Mr. Charles D. Sheldon in that city, whose whereabouts are at present unknown. The Ottawa Free Press gives us this picture of him:

"Charles D. Sheldon the most talked of man in Canada today, is a man of, oh, say, 50 years of age.

"He is fairly corpulent, rather slovenly in his dress, and has sandy hair, a dark red nose, and a peculiar 'squint' with the right eye half closed and the left one very wide open.

"He talked in a straightforward, business-like manner. Indeed there were only two things about him that did not tend to inspire confidence in him—the 'squint' and the shaggy beard, but which only this was prevented from slipping down and covering his whole face.

"When he argued in support of the straight-forwardness of his business he had a habit of saying, 'People come and say so me—' Then, would be quoted the manifold objections to his kind pool methods. And then he would say, with great emphasis, 'And I just said to you—' Here would follow manifold arguments to show that his business was just as much 'on the level' as that of the Bank of England.

"As a rule, he expressed himself correctly and with precision, although occasionally there would come a sentence of faulty grammatical construction. 'His voice was just a little harsh. In fact, the slouch hat, the 'squint,' and the voice did not combine to uphold his own description of himself as a 'simple, sweet man,' which appeared in one of his recent advertisements. 'This is Charles D. Sheldon, the man of the slouch hat and the 'squint,' the man about whom 3,000 people are thinking unkind thoughts today.'

MUNICIPAL STREET RAILWAYS

Western Canadian cities have declared, almost unanimously, for municipal operation of street railways. The largest of all, Winnipeg, is an exception and its experience is not likely to make the others think that they have made a mistake. The system is proving an immensely profitable one for those holding the charter, while in efficiency of operation it has certainly nothing to boast about over those under civic control. It is only a year or so ago that the city was tied up by a serious strike. Later the power supply failed. Now the company and the men have had another falling-out.

But it is in the Old Country that the greatest justification is found for the policy so firmly rooted in our own part of the world. The yearly conference of the British Municipal Tramways' Association always brings out some information of considerable interest. The president in address at Bradford the other day, delivered by Mr. C. J. Spencer, general manager of that city's transportation undertaking, makes unusually good reading. He had a story of great expansion to tell.

Upwards of \$235,000,000 have been invested in these public enterprises, and for the year ending March 31, 1909, over \$50,000,000 was paid in interest to holders of city street railway bonds, close on \$5,000,000 was paid into sinking funds for reduction of debt, and the aggregate receipts exceeded \$40,000,000. Answering the objections often made by private ownership supporters that municipalities did not set aside enough for depreciation, Mr. Spencer showed that the allowance for that purpose made by British private companies was, on the average, only 1.6 per cent, while the average for municipal undertakings was 3.4 per cent. Facts of this kind easily dispose of the current, but absurd, notion that the management

of public undertakings is necessarily less efficient than that of private companies.

During the year in question city street railways paid in local rates and taxes, as commercial undertakings, in round figures, \$1,800,000, and paid out of their free profits \$1,400,000 in relief of local rates. In such circumstances it is not difficult to understand why there is no general desire to hand back public street railways to private enterprises. The fact of the matter, says Mr. Spencer, is that experience has proved in the great majority of cases that street transit facilities are operated and controlled to the best public advantage by the local authorities in whose area the street railways are located. But in his opinion street railways have not yet been fully utilized for the public good, and he looks for important developments in the way of freight carrying. A movement is already on foot in Britain in that direction, and the city of Leeds has entered into some large contracts for the carriage of material. Mr. Spencer sees a considerable future for the trackless trolley system and pointed out various other possible developments that are likely to attract attention in the near future.

What Others Say

CALGARY'S POPULATION.

(Ottawa Journal.)

As the Calgary News points out in half a column of vigorous and leaded English, The Journal has committed an error. However may forgive, but Calgary will never forget.

In a recent comparison of Ottawa's and Calgary's experience in regard to level crossings, The Journal used the following incidental phrase in a sentence—

"Calgary which has grown from 4,000 in 1898 to 30,000 in 1910 has, etc."

Now the Calgary News tells The Journal and the world that Calgary had 40,000 population this spring, and has 50,000 now. Waggon's guide, which until recently credited her with 30,000, has now given her the credit of the advanced figure.

To Calgary, the Journal apologizes for we realize the heinous nature of our fault. It was as if we referred to a lady of thirty-two as "approaching forty." And, may Calgary continue to flourish, till she reaches that point, and happy condition, which Ottawa has reached, where size ceases to be a first consideration, and quality and beauty becomes the leading and only ideal.

ON CANADIAN BANKS.

The criticism of the Canadian banking system offered by Professor J. P. Johnson of New York in his report to the National Monetary commission of the United States has not aroused any searchings of heart among Canadian bankers. In fact, they take as praise some of his very criticisms, and point out that his point of view is both academic, and, in a way, prejudiced. The branch bank system as we have it in Canada is practically impossible in the United States, and, therefore, defenders of the Canadian system suggest, the United States commission which has this big problem in hand would welcome, if it did not expect, some criticism of that system.

"I take it," said one of Canada's most prominent bankers in Toronto a few days ago, "that Prof. Johnson's report is throughout one of the highest praise for our system. Where he does find fault it is because either of ignorance of our conditions or of prejudice in favor of the system of his own country."

Separation of Systems.
"For instance, he argues in favor of the separation of savings and commercial banks. That is a natural thing for a man from the Eastern States to say. There such a division has worked fairly well, but it has been attended by very bad results in the Western States. Just on this point, I am not sure that Prof. Johnson is right when he says that all savings banks in the United States pay four per cent. on deposits.

"If savings banks were allowed to lend money only on real estate, it would withdraw a great deal of money from commercial enterprise and rates would be higher all round. We argued that money to lend on real estate can be supplied by life insurances. Orpheum Theatre.

WrestlingRUFUS RYAN
TURNED DOWNInterprovincial Rugby League Re-
fuses to Reinstate Ottawa
Outside Wing

The Interprovincial Board of Governors turned down the application for reinstatement of Rufus Ryan, the Ottawa football player, and the papers of that city are rendering the air with howls of disgust.

If anybody deserves to be turned down it is Red Ryan. The first time he played professional hockey, the governors pitied his protestations of penitence and gave him back his amateur card. Last winter when the snow started to fly, Ryan again donned his snow shoes and hiked for the silver currency to play hockey. Autumn again comes around and Ryan speedily puts in an application for reinstatement in order to turn out with the Rough Riders.

And then he is surprised when his application is refused.

Listen to what the Free Press says: "Remember Ryan."

Just as the battle cry in the Spanish-American war was "Remember the Maine," so will the Ottawa football team's slogan be "Remember Ryan," this season. The news that Jack has been turned down by the western governors of the Big Four introduced a new determination in the ranks of the players to win out this season. Said one prominent player this morning:

"They knew what Ryan meant to us and that's why he was hooked. But we'll show them that we can win without Jack. Wait till that Hamilton bunch come down here, they'll know they have been in a football game. I don't think there is anything that can stop our fellows from winning now. We will all go in every game determined to avenge Ryan's disqualification."

It is said Ryan will get an enlarged photograph of Ryan and pass it around among the players before they go out on the field and at half time it will be called "Remember Ryan."

Clancy must have broken the enlarged picture before Saturday's game as Montreal handed them a beautiful wallowing.

A WIRE FROM CALGARY.

President Belanger of the Edmonton Rugby club received a wire this morning from Secretary Kemp of the Calgary Y.M.C.A. football club in regard to the intercity dispute.

Mr. Kemp states that as far as his team is concerned, they will not consent to play in Edmonton until the Calgary City league championship is decided, and further he says, no Calgary team will come here until the Eskimos have played in Calgary on Thanksgiving Day.

This wire means that there will be no game at Diamond Park on Saturday, and if Calgary sticks to its determination of not coming up until after Thanksgiving Day, local fans may have to forego the pleasure of seeing the two teams in action.

A meeting of the Edmonton Rugby executive is called for this evening, at the Cecil Hotel where the matter will be discussed at further length.

In Philadelphia the fans say there is no chance of the Cubs ever "finishing" after the Athletics again in future years.

WORLD'S SERIES SQUIBS

The figure "3" turned up a number of times yesterday. Strunk and Combes fanned twice and Hoffman received three bases on balls while Eddie Collins made three safe hits.

More than 10,000 certified checks were returned by the National Commission to Chicago fans. The attendants promise to be the target in the history of the world's series.

Another Chicago idol has been shattered. Time was, and not so long ago that Three-finger Brown was considered the best in the big. But O, you seventh innings yesterday.

There will be several candidates for "The Cunk Come-back Club" after this series. We respectfully nominate Mister Overall and Mister Brown, for a start.

The Athletics are the favorite in Edmonton. There has been very little Cub money offered around here, and it was eagerly grabbed. Deacon White claims the Athletics should win, and Deak hails from Chicago, too.

Toronto fans think that if Jim Archer, the native son who has been behind the bat, the result would be different. King's arm seems to have lost its cunning.

Zimmerman and Strunk have not done anything yet to cause the fans to prevent crowns of laurel leaves. If Jim does not start hitting pretty soon, he may be hooked and Artie Hoffman moved into the infield.

With King Cole, the Bay City barber occupying the mound and about 40,000 frantic West Side fans yelling imprecations at the Athletics, something may happen so Connie Mack's gets on Thursday. Notice we say "may."

Combes was very erratic, giving no less than nine bases on balls, but he did lighten up when the bases were choked. Judging from the way the Cubs batted in pinches they seem to have a good claim to the White Sox title of "biffers wonders."

The fielding was not anything like as snappy as in the opening game. Combes slipped up twice in one inning. Davis dropped two perfect throws to first base, while Sheppard and Steinfield also broke into the error column.

The special train which carries the two teams, the umpires and the National Commission from Philly to Chi will contain a strange mixture of joy and sorrow. Fifty-seven hands will not be at the station to welcome the Cubs, not.

Before the series commenced, the consensus of opinion was "that the Cubs would run wild on the bases, while Kling and Archer would keep the Athletics anchored to the bases." The experts overlooked the fact that any man can score on a succession of base hits.

NATIONAL GOLF CHAMPION

Chicago, Ill., Oct. 17.—Miss Dorothy Campbell, of Hamilton, Ont., won the Women's National Golf Championship on the Homewood Country Club links of Florence here today, defeating Mrs. G. M. Martin Tavistock, England, 2 up and 1 to play.

ACCUSES COBB OF QUITTING COLD

Here is what one Detroit newspaper says about the alleged "lay down" of the St. Louis Browns' manager, Cobb: "Lajoie made his eight hits, and capped the hitting honors of the year and an automobile."

"Tyrus Raymond Cobb quit cold when he thought he had a commanding lead for the prize automobile retained one of the last two games left, made a chance of losing that big lead. He quit."

"Napoleon Lajoie played two games Sunday, and increased his mark, till he passed Cobb, because friendly St. Louis players laid down. The Browns handed it to him. He took it."

"There, dear friends, you have the pursuit of a disreputable automobile pursued in a nutshell, a pursuit which leaves to the donors a lot of free advertising and to the chase a walk in the face of honesty and a kick in the seat of integrity."

"Cobb quit before the season was over so that he might escape the possibility of losing his percentage of 88. He was so covetous with the prospect of getting an automobile for nothing that he was willing to cast aside all thought of fairness and sportsmanship, and quit cold while the quiting was good."

MONTANA TOWNS
WILL ENTER

In Letter to Deacon White, President Eckstrom Tells of His Trip to Montana Towns

It looks as if the International base ball league is a certainty for 1910. Manager Deacon White, of the Eskimos, yesterday received a letter from President Eckstrom, written en route to the World's Series games in Philadelphia.

Mr. Eckstrom stated that from what he could gather from talking with baseball enthusiasts in Butte, Helena and Great Falls, there is not much doubt of the American Cities entering teams.

Helena and Great Falls are wildly enthusiastic over the prospect of professional ball. There is lots of financial backing in these cities for baseball and no trouble will be found in getting them in.

Butte promises to be the stumbling block. Though by far the largest of the six proposed cities, the fans are very apathetic, and will require enthusiasts like Deacon White, Alf Bidder and Moose Baxter to get them going.

They have been stung quite often in the past by poor teams, and nobody seems to want to step forward and shoulder the responsibility of the franchise. However, Mr. Eckstrom assured Deacon White he was sure that with a little work the latent enthusiasm could be awakened in Butte, and a team entered.

The Butte fans will make no mistake if they get after Moose Baxter to manage their club in 1911. Moose is a native son of the Copper City, has a wide circle of friends among the baseball profession, is a strict disciplinarian, and has a good business head on his shoulders.

If it would inspire confidence in the Butte fans to have a local man in charge of their club, Moose is the very man for the job. He would also be able to do a uniform and hold down first sack to the King's taste.

Immediately President Eckstrom returns from the World's Series games a league meeting will be called and the financial services held over the dead body of the Y. C. L. L. Steps will then be taken towards the organization of the International and if nothing unforeseen crops up, the new circuit should be a certainty for next season.

CHARGES WERE UNFOUNDED

Chicago, Oct. 16.—After being closeted with three of the members of the St. Louis Browns for several hours today President Ban Johnson of the American League announced that the investigation into the Lajoie-Cobb batting scandal was at an end so far as he was concerned, with the exception of hearing the story of Manager O'Connor of the Browns.

Johnson said that he was satisfied the charges were unfounded and was convinced that Lajoie made his eight hits at St. Louis last Sunday honestly.

ATHLETICS WIN
SECOND GAME

Shibe Park, Oct. 16.—In the second game of the world's championship series between the Philadelphia American League team and the Chicago Cubs of the National League, the latter were badly beaten by the score of 9 to 3. The pitcher in whom Manager Clancy had placed such confidence, Brown, was batted for 14 hits, four of them by extra base hits. He also gave nine bases on balls.

Chicago—Sheppard, 1 f.; Schultz, 1 f.; Hoffman, c.; Chaneb, 1 f.; Zimmerman, 3b; Steinfield, 3b; Tinker, s.; King, c.; Brown, p. Philadelphia—Strunk, c.; Lord, 1 f.; Collins, 2b; Baker, 3b; Davis, 1b; Murphy, r.f.; Barry, s.; Thomas, c.; Combs, p.

Score by innings: R. H. E. Chicago 100 000 1-3 10 Philadelphia 002 010 6-9 14 2

Umpires: O'Day and Rigler (National League); Sheridan and Connolly (American League.)

T. C. S. BEAT RIDLEY

The game on Saturday in the Little Big Four, between Trinity College School and Ridley College, St. Catharines, resulted in a win for the Port Hoppers by 20 to 14. The score was tied 14 times during the game. Upper Canada College lost to St. Andrews by 13 to 3.

MATTY KINGS SUPREMACY

New York, Oct. 16.—The prestige of the American League suffered here yesterday when the fifth game for the city championship of the National League team swamped the Highlanders 5 to 1. Matthewson was the big figure in the winning combination being a complete mystery to the Chase crowd on every occasion when they had the semblance of a chance to get a man across the plate. To date these teams have played five games, the Nationals winning three, the Americans one, and one tie. Today's score:

New York Americans 1 6 0
New York Nationals 5 6 2
Fisher and Mitchell; Matthewson and Meyers.

BIG FIGHT PICTURES

Edmontonites will this week have an opportunity to pass judgment on the films of the Johnson-Jeffries fight which took place at Reno, Nevada, on July 4th. Arrangements have been made whereby the pictures will be shown at the Thistle Rink on Friday and Saturday.

CINCY BEAT NAPS

Cincinnati, Oct. 16.—This city's National league team made it four out of five in the half dozen games for the Ohio state championship, taking yesterday's contest by a margin of 8 to 5. Both teams played wonderful ball in the field, but Cincinnati were there with the hits and won on the strength of their splendid batting. The score: Cincinnati 8 8 1
Falkenberg, Kaller, Mitchell and Adams; Suggs, Gaspar and McLean.

NO WORD YET FROM CALGARY

About the Rugby Game Next Saturday—Must Make Decision Quickly

Speaking of the Calgary rugby league, the Albertans say:

"Should the Y. M. C. A. win another game it will be necessary to decide the city championship and see which team is to play Edmonton. This would necessitate playing on Saturday, October 29. A hard game on the 29th would be unfortunate for either team, as they would have to meet Edmonton two days later. With this in view, the Tigers say, they will beat the Y's on Saturday and avoid playing another game on the 29th."

The Albertans and the Calgary rugby boys need not fear about getting too tired to play Edmonton. From present indications, the chances of home and home games between Calgary and Edmonton do not look very bright. As yet, no word has been received from either the Y. M. C. A. or the Tigers, as to their intention of coming to Edmonton on Oct. 22nd.

As everything is probably off, if Calgary do not see fit to live up to their original agreement as to dates they will have to play among themselves.

The Edmonton executive is now in communication with the Moose Jaw team and home and home fixtures will probably be played, with the first game in this city on Thanksgiving Day.

The Eskimos have something better to do than foul around for three weeks ally knocking their heels to gether, while the Calgary teams engage in pugilistic encounters which they fondly term rugby games. It is high time certain Calgary athletes got wise to the fact that Athletics in Alberta are not run for their sole convenience.

PROV. LEAGUE
HANGS FIRE

Amateur Hockey Circuit is Hard Thing to Get Started—Another Meeting

(The Albertans)

The hockey players, who held a meeting last evening at the Dominion hotel did not come to any decision regarding the provincial league.

The meeting was called for that purpose, and delegates from the clubs were invited. Unfortunately, several representatives were not present, and a full discussion could not be held.

The question was thoroughly discussed by those present, who decided to shelve the matter until the annual meeting of the city league, which takes place the first week in November.

The sentiment of the meeting was favorable to a provincial organization provided it was organized on a good footing, with the whole of the Alberta league clubs affiliated.

If it can be done, the opinion was that it would foster the game and put it on a higher elevation than at present. There are enough good hockey teams in the province to make a strong association, and a number of district leagues.

STANLEY CUP IN MONTREAL
After spending the summer in Ottawa, the Stanley Cup, with its new hobbie skirt attachment, has been sent to its rightful owners, the Montreal Wanderers. E. J. McCafferty, the new owner of the Wanderers Hockey Club, had first to forward satisfactory bonds to Ottawa.

The hoop district in dear old Chi. presented all the quirkiness of a country market last evening. Anybody mentioning baseball in the leading cafes had to buy.

BIBLE SOCIETY TONIGHT

Meeting in First Presbyterian Church
Holds Peculiar Significance.

The annual meeting of the Edmonton branch of the Alberta Auxiliary of the Canadian Bible society, will be held in the First Presbyterian church this evening at 8 o'clock. This meeting will take on a special character in view of the preparations that are being made for the tercentenary celebration of the publication of the authorized version of the Bible on February 13, 1911. The following will be the order of service: Organ prelude, hymn "Father of Mercies in Thy Word," scripture reading, Psalm 19, prayer, reading of the minutes of the last meeting. Report of the nominating committee. Anthem, "Hark My Soul." Address, "The influence of the Bible on English literature," Prof. K. Broadas, Solo, "Come unto Me," Miss Ethel Webster. Address, "The Bible society's aim and work." President H. M. Tory. Offertory benediction.

Mr. A. T. Cushing will occupy the chair and it is expected that His Honor the Lieutenant-Governor will be present at the meeting.

MARRIED A MINUTE.

(Continued from Page One)

will imposed the condition of marriage upon her. She said she had postponed fulfilling this requirement until the last minute and was in a hurry to make good. Hence her advertisement. Brown said it was purely a business proposition with him, and he left the court house looking for somebody who could break a \$100 bill.

ORPHEUM THEATRE

IMP—IMP "DEBT" IMP—IMP

In this film entitled "DEBT," you are going to see some of the finest acting ever done before a camera. The story is simple and goes straight to the heart. This picture is of special interest to Canadians as the story is carried out at the famous Cobalt Silver Mines, Northern Ontario, Canada. It is a treat when you can see an Imp photographed in your own land.

"A Cowboy's Daring Rescue" (Bison). Starring, thrilling dare-devil riding; just the kind of Western pictures you like. Whatever you do, don't miss it.

Other pictures. Illustrated song by Mr. Cyril Newton. Children in afternoons, 5c. Adults 10c, 2 to 5 p.m. Evenings 7 to 11 p.m. Watch for Buffalo Bill and Pawnee Bill's Wild West Shows.

Brown gave his age to the marriage license clerk as 31 and Miss Sauer as 32. Before the ceremony the couple signed an agreement that they would separate immediately afterward. Mrs. Brown said that she would return and obtain a divorce within a year.

\$10,000 MARK.

(Continued from Page One)

having known him to be interested, they expected to get about \$25 from him. When asked what he should give they asked for fifty dollars, expecting to get \$25. "Oh," said the book-keeper, "I think that I ought to give more than that," and he paid over \$100 across the counter.

Another rather amusing story is told of a business man who was interviewed during the course of the morning by a traveller who wanted him to buy his goods, but instead of being interviewed, he turned the tables on the traveller and explained to him all about the Y. M. C. A., and asked for a subscription and on fact told him that if he wouldn't give a subscription he would not buy any of his goods. The traveller, thinking to save his bacon, gave a dollar. The business man thereupon refused to buy any of his goods.

At the supper each table belonged to a team and some of the inscriptions on the cards marking the tables were very amusing. There were Dingle's Debt Dispensers; Hutton's Happy Hustlers; Butchart's Busy Bees; Gilbert's Good Garters; Race's Realty Rogers; Kew's Kash Kenders; Marshall's Money Makers; and McLeod's Magic Multipliers, a truly formidable force of workers to get together \$36,000 needed for the Y. M. C. A.

BOXING BOUTS ARE CAUSE OF DISCORD

Lively Discussion Last Night at
Meeting of the Strathcona
Council.

DO POLICE SYMPATHIZE?

Charged That They Do Not Do
Their Duty in Prohibiting
Glove Contests.

The apple of discord lured sweet harmony compared with the welcome which Ald. Richards boxing by-law received last evening at the meeting of the Strathcona city council. The meeting was fully attended for a discussion of the important subjects now up before the municipality.

Notice of the proposal of the by-law was given some weeks ago by Ald. Richards, but a discussion of the by-law was necessarily postponed from recent rather pressing sessions of the council. The by-law in the original version pronounced any one an offender against it who took part in any way in boxing, sparring or wrestling contests. The council resolved itself into a committee as a whole to hear the second reading of the by-law. Ald. Tipton was the first to pick up the gauntlet. He came out fair and square against the law. He liked to see good boxing and it was well known that Y. M. C. A. gymnasiums were frequently the scenes of sparring contests and exhibitions. Prize fights he did not approve of, but there was a difference between boxing bouts and prize fights. As to the bouts recently held in Strathcona they were quiet and orderly and Chief Lacey had seen nothing wrong in them. He also had it on good authority that they were shortly to be allowed in Edmonton, as they are permitted in every town. You might as well prohibit hockey and lacrosse games, which were frequently scenes of brutality and disorder. He saw more brutality at New Westminster four years ago when Westminster played Vancouver for the lacrosse championship than he had ever seen in boxing contests in his life.

Moreover, he considered the by-law unnecessary as the case was fully covered by the criminal code. It had been introduced to place the law and he was for that reason all the more opposed to it.

Mayor Duggan made at this juncture a motion that the law should prohibit only prize fights.

Ald. Richards who fathered the bill now took up its defence. "My reason for introducing the by-law was that for the police it is hard to draw the line between a boxing bout and a prize fight. It is over before anyone knows which it is. The picture is not very edifying and the results from wrestling are often fatal to the participants. Ald. Tipton has referred in slurring tones to hockey, but I may say to him that I will withdraw from hockey circles for the same reason that I oppose prize fighting, on account of its brutalizing influences."

The discussion was continued on both sides with much feeling. Some one expressed the opinion that the moving picture show was just as bad. There seemed to be an opinion that it was after all rather a matter of words. All seemed opposed to prize fights in general though several expressed themselves as favorable to boxing bouts. An amendment was made by Ald. Congdon to Mayor Duggan's motion that the wording of the Calgary by-law be substituted. The amendment was lost and Mayor Duggan's motion carried.

The following were recorded as voting for Mayor Duggan's motion prohibiting merely prize fights: Tipton, Lendrum, Darman, Duggan, Polard, Caldwell, against Congdon, Bush and Richards.

Stroby, who took a cross for at this point Mayor Duggan resumed the chair and received the report of Ald. Bush that the by-law had been read a second time. At this point Mr. McDonald of the Plaindealer asked leave to speak. "It seems to me, he said, that the police are taking steps to be taken in to act on the criminal code and prosecute. The trouble is that the police are in full sympathy with such bouts and do not do their duty."

Ald. Caldwell: "Any citizen who has knowledge of such things should inform against the police."

Mr. McDonald: "I hereby lay a complaint against the police. Will you take cognizance of it and act on it?"

Ald. Bush suggested that the motion was directed against prize fights council reading the bill for a third and not athletic contests. Upon the time it was passed and became law. This board of health also came in for a jolt from Ald. Tipton. Referring to the fine of \$50 for spitting

AT THE THEATRES

THE HOUSE WITH CLOSED
SHUTTERS

There are some pictures which no amount of words can ever do justice to however eloquently expressed, for they arouse not merely admiration but a feeling of heart interest. A film is "The House With the Closed Shutters." Originating in the American war the play portrays a young girl bidding adieu to her lover and brother as they leave home for the front. Later on the brother is entrusted with sealed dispatches, but having too constant recourse to the bottle to raise his spirit he becomes helplessly drunk while at the door of his home. For a while the mother and sister are plunged into the depths of despair, but soon the girl's courage returns and she decides to take her brother's place. From one danger to another she passes on unrecognized, until at last in an attempt to save the flag she dies—a true daughter of Dixie. Her identity is not discovered and the people are led to believe that the boy was killed and that the girl is crazed with grief. The picture ended amid death-like silence, the trust applied to real drama. It will be shown at Starland tonight and tomorrow in the new change of programme.

BIG FIGHT PICTURES COMING

It is definitely announced that the moving pictures of the Jeffries-Johnson fight at Reno, when the hope of the white race failed to come back, will be exhibited at the Thistle rink. The pictures of the latter great scrap at Reno last Independence Day are all to the odd as has been demonstrated by the capacity audiences who have seen them in Winnipeg, Vancouver and Victoria. The pictures of the fight are clear as a bell and fully the equal of any fight pictures that have ever been shown in the city. They're interesting, too, a great deal more so than might be thought from the printed accounts of the battle in which the clever black outcasts the big white man. They show Johnson's great speed and cleverness. The pictures are not in any way more offensive than any others that have been shown here and they are all the more interesting for the fact that more than half of the films show scenes in Reno preceding the fight and incidents at the training camp.

on the sidewalks, he remarked that people spit in the street and the excretions and filth swept up from the street are dumped along some of the central thoroughfares. "Is this conducive to health? I notice that these dumping grounds are not far removed from the seat of the outbreak of typhoid. I want to ask the board of health to investigate and report. It is certain that there is considerable sickness in town. It is not from the milk, nor from the water supply, but from the filth allowed to congregate in lanes and public places. I have only a limited knowledge of science, but my common sense teaches me that it cannot be sanitary. It is up to the health officers to see that the filth is cleaned up and hauled on to our streets to heat and fume and throw off all the germs of unsanitary. I see no purpose in this bylaw that prohibits spitting."

Other matters discussed were the right of way of the C. N. R. north of block 41. The committee that has acted had done so in conjunction with householders and received the approval of the council.

Sewage troubles and petitions occupied some time also. The committee appointed to arrange for the presentation of the Governor General's medal to the city had the date had been set for October 27th at 4 o'clock.

Mr. Jamieson was instructed to send notices of amendments to be petitioned for in the Legislature here at the coming session.

The unsanitary methods of scavengers was brought up by one of the members of the council. Their leaky carts leave offensive traces behind. Moreover, it is come to the knowledge of certain of the members that dogs were being kept within the city limits. Ald. Caldwell thought this should be dealt with only by the board of health, but Ald. Richards thought it was the duty of the board of health to see that the prevalence of sickness the utmost precautions should be adopted and any infringements of the laws relating to health severely punished.

On account of the lengthy discussions of the council the meeting had to be hurried at the last. Motion for adjournment was made at 11.30.

MUNICIPAL POLITICAL MEETING

Friday Night, 8.15 Sharp

PURSUANT TO INSTRUCTIONS OF THE COMMITTEE, public Notice is hereby given, that there will be a meeting of Ratepayers, Electors, and Citizens of Edmonton, in the

SEPARATE SCHOOL HALL, On Friday, October 21st, 1910, at 8.15 p.m. Sharp.

To organize an Association to take action on Municipal matters. The following Order of Business will prevail: 1. Disposition of the Report of the

Committee, recommending that an Association of Citizens of Edmonton be organized to take such action as the majority may decide on Municipal questions; 2. Consideration, adoption or amendment of the Draft of a Constitution which will be submitted to the said meeting, by Sub-committee appointed to that purpose.

3. Election of Officers of this Association when so formed; 4. Such other business as the Association when so formed may wish to transact.

By direction of Sub-committee Mr. A. E. Pitzer, is designated as Convener of this meeting and he (or his representative) will call the meeting

to order, at 8.15 a.m. sharp, IN ACCORDANCE WITH INSTRUCTIONS.

"EDWARD L. WRIGHT," For Committee.

TOO LATE TO CLASSIFY.

WANTED TO RENT—A SMALL cottage or bungalow, 5 or 6 rooms, in west end of city. Wanted on or about November 1st. Apply Imperial Agencies, 248 Jasper Avenue.

Russell

"30"

\$2,510 Specially Equipped

Made up to Standard, Not down to a price.

Easily the best value in the market. Let us prove it.

Russell "30" for 1910 has been the biggest sensation of the year. Russell "30" for 1911 is an even greater value than its predecessor.

The car will now have 34x4 inch tires both front and rear. Spark and throttle control levers are of an improved type. A foot accelerator has been added. Better lamp equipment is given, including larger gas lamps. Solid type of dash board, allowing attachment of glass front without the use of filler-in-board. The car has the popular high four doors, introduced to Canada by us last season, and most universally demanded.

Its powerful engine (save for improvements) is the same as the one used in the 1910 model—certainly by recommendation enough to all familiar with its past performance.

Russell "30" has the following styles of bodies: Five passenger touring, toy coachman, and special roadster. Its wheel base is 115 inches. It has standard construction, including shaft drive, selective transmission, full floating type of rear axle, etc.

Don't Miss This Car

An up-to-date range of Ladies' Fur Coats in 46-inch and 50-inch lengths, made of Persian Lamb, half Persian Lamb, Electric Seal, Russian Mink, etc. at very reasonable prices.

There are many lines to be sold at prices in proportion to above offered, we will display the stock to the best advantage for the public to see and purchase. Although our premises are small, early shoppers will get the benefit.

THE BON MARCHE
Corner Second and Jasper next to Reed's Bazaar

HORATIUS ARMSTRONG GUARDS EAST BRIDGE AGAINST GARIPEY

An agitation during the last few days led up to a climax at last night's meeting of the council when Ald. Armstrong and Ald. Garipey had a passage of arms over the east end bridge. On the surface it appeared to be a misunderstanding and the argument wound up in apologies a trifle cold and austere.

Ald. Garipey is a member of the committee appointed at the last meeting of the council to look into the east end bridge matter and instructed to report at last night's meeting. The report indicated progress, and a motion was made to adopt it.

Before the motion was put, Ald. Armstrong protested against the delay, apparently on behalf of a deputation which was subsequently heard. Ald. Garipey seemed to take as reflecting on the committee. Ald. Armstrong contended that something definite ought to be done immediately in connection with the bridge and suggested that as there was no unanimity that the bridge should be built, suggested that the city engineer be instructed to prepare plans and an estimate of the cost, and in the meantime that a referendum authorizing the construction of the bridge be referred to the electorate, and would up by making a motion to that effect. There were therefore two motions.

Ald. Garipey regretted that although the proposal had been on the tapis for a considerable length of time the city engineer had not been able to prepare plans through lack of power. He did promise to do so as soon as possible, and then the committee would be in a position to make a complete report. In referring to Ald. Armstrong's motion he stated that there was nothing to report as the advisability of building the bridge as all were agreed on that, but that the cost of the bridge should be known and the plans prepared before a bylaw could be properly submitted.

A suggestion was made by Ald. Armstrong that if the city engineer was too busy to attend to the east end bridge that a qualified assistant be appointed to take charge of the preliminary work to which Ald. Hyndman agreed. The mayor made reference to a deputation being present in connection with the bridge and they were called on.

Mr. J. Dawson in curt terms demanded the fulfillment of the pledge made at the last election, namely, that the east end bridge be brought to an issue.

"Your term of office is nearing a close," he said, "and nothing is done and remember that you have pledged yourselves to bring it to an issue. We don't want you to build the bridge—we want you to give the citizens of Edmonton a chance to build the bridge and they decide not to, then you are not to blame."

Applause from the spectators present followed Mr. Dawson's remarks.

Mr. S. W. Candy said a few words stating that another engineer had prepared plans and an estimate of cost. His estimate was \$150,000.

Ald. Garipey in that connection said that the city engineer did not care to build the bridge and the estimate of cost was \$150,000. He desired to make his own investigations. He drew attention to the fact that there were two motions before the council and declared that Ald. Armstrong's motion was out of order and was awarded the ruling of the chair.

The motion to adopt the report was then put and passed, and Ald. Armstrong then made a motion in accordance with his suggestion that an assistant to the engineer be appointed.

"There is no necessity for that," declared Ald. Garipey, "the matter is settled now. Ald. Armstrong's motion is the most ridiculous thing I have ever heard of. The committee was organized to take charge of the matter and they have reported progress, the only thing they could do."

A compromise was finally effected by a motion being passed giving power to the committee acting in connection with the city engineer to appoint a special engineer to act as assistant to the city engineer and prepare plans and an estimate.

Ald. Hyndman stated that he did not think that Ald. Armstrong intended to cast any reflections on the work of the committee, but merely wished to have the matter pushed.

"Oh, I beg your pardon, then," said Ald. Garipey.

Ald. Hyndman gave notice of a resolution to be made at the next session of the council to ask the provincial government to acquire the water power resources of the province, develop them, and give power to the municipalities at cost.

The motion is as follows: "Whereas cheap power is essential

in order to induce manufacturing establishments to locate in the city of Edmonton and elsewhere in the Province of Alberta.

And whereas large undeveloped water power exists in various portions of the Province and could profitably be developed for the use and advantage of many of the cities and towns throughout the province.

And whereas it is desirable at this stage of the province's history that the control of such a public necessity should be with the government as representing the whole people rather than in the hands of individuals and private corporations.

Be it resolved, that in the opinion of the council of the City of Edmonton the provincial government should acquire all necessary water power and develop same for the benefit of the various towns and cities tributary thereto, and sell hydroelectric power to such towns and cities as desire the same at the lowest possible cost, for distribution by the municipalities of the towns to the citizens thereof.

And this council does hereby strongly urge the provincial government to pass the necessary legislation at the earliest possible date to create a commission of experts to investigate and report on the water power and hydroelectric power, with all necessary powers to carry into effect the intent and meaning of this resolution.

That the other cities and towns of the province be requested to co-operate with the city of Edmonton in bringing into effect this resolution.

The commissioners recommended the appointment of the Canadian Agency, Ltd., of London, England, to act as the representative of the city in the old colony in the disposition of civic stock, which they claimed would result in the city's securities being placed on the market at the best time, thereby securing the best price.

"The company," said the report, "is recognized as being among the very best financial houses in London, and has a paid-up capital of \$2,500,000. It has large investments in this section of the province and is naturally interested in the advancement of this city and district. It has established an agency here, making this city its headquarters for all business connected with the city and district. It is undoubtedly instrumental in bringing much capital into the district. The company will be paid one-half of one per cent. on the par value of the issue, for its services in marketing the city's securities."

When the city has secured the necessary power to issue stock instead of debentures, this company will take the transfer books, issue stock certificates, make all transfers of stock, pay all interest, warrants, etc. For this the company will receive one per cent. of the interest payments until the issue of stock amounts to \$1,000,000, when it is subject to readjustment.

The company will also make temporary loans to the city on the security of bylaws already approved by the burgesses and treasury notes of the city at a rate of one half per cent. higher than the Bank of England rate.

The agreement will be subject to termination at the end of five years or any time thereafter by either party giving six months' notice to that effect.

We recommend that a by-law authorizing and embodying such an agreement be passed by your honorable body.

The matter was tabled until the next meeting and in the interval copies of the report and other information will be distributed among the citizens.

On a motion of Ald. Lundy, seconded by Ald. Macdonald, the grant of \$500 was made to the fund in aid of the sufferers in the recent Rainy River holocaust.

The manufacturers' committee's report on industries was adopted. In connection with the report of E. P. Wayman to establish a soap factory and of the Camrose Tannery Company to locate in Edmonton, it was decided to leave the matter to the committee and the city engineer to report on the extent of the report, which was as follows:

"We would recommend that free water and light be given to bona-fide industries contemplating starting in this city, to the extent of from \$250 to \$500 per year, for a term not exceeding five years—according to the amount of capital invested and extent of labor employed; but this grant shall not be given to industries that will be in competition with manufacturers established here previous to the date of this report. The light and water departments shall paid at schedule prices out of the revenue account for light and water supplied such manufacturers."

"When an industrial concern requires a site for manufacturing purposes the city should be in a position to sell or lease a suitable site at a reasonable price."

"When a lease is required, we recommend that a lease be given for a term of years—three, five or ten years, as agreed upon by the city and the company—which option to purchase at a stated price at the end of the term of years or at any time during this time provided the city is satisfied as to the responsibility of the company to keep the factory in continuous operation."

The city hospital authorities requested the continuance of the grant of 25 cents a day for non-paying patients. It was decided that the grant be extended until the new hospital is completed.

The motion passed at the last meeting offering at auction the lots adjoining the First street market was rescinded and property-owners whose property is located beside it will be given the opportunity to purchase the lots according to the schedule of valuation drawn up by the commissioners.

The letter of J. McK. Dickson, declining to pay taxes on account of the city's action in making a grant of \$10,000 to the board of trade. Mr. Dickson stated that he considered the council incapable of judiciously expending the public funds for so doing and would decline to pay taxes until there was a capable body in charge.

Ald. Hyndman: "I move we resign in a body."

Ald. Garipey: "I move the letter be framed."

It was decided that the letter be filed. Ald. Garipey expressing indignation that a citizen of Edmonton should lower himself by writing such a letter.

This financial report showed accounts to the amount of \$162,664.60. They were ordered to be paid.

The Exhibition Association report was presented by the auditor and adopted.

Dr. Collins was appointed to the board of health, vice Dr. Wilson, resigned.

The commissioners reported on the progress of local improvements. Other work will be taken in hand as soon as the weather permits. The inclement weather has been a serious obstacle this year and much work was interfered with.

Following is the progress made: West End Bridge on Athabasca avenue across Groat Ravine—Contract awarded and signed; steel work underfoot and in progress at bridge foundations. Plans approved for piers and foundations and tenders about to be opened for same.

Street railway extensions—The above work is now progressing as rapidly as is practicable and as much of it will be completed this fall as the weather will permit. All material now being here or ordered. We beg to point out, however, that it will be impracticable to render any appreciable services until we obtain more cars. Two cars are promised for delivery within the next month. The six cars covered by the last order are promised for delivery during the months of March and April, but we are urging the builders to make earlier delivery and will keep on doing so, although the order was placed without any well defined obligation as to delivery and without obtaining any surety.

Paving—Second street completed; Jasper avenue completed; Third street grading completed; Namayo avenue grading completed; track work nearly completed; paving of roadways about 80 per cent. completed. The length of 884 1/2 feet of four-foot walk has been laid on Victoria, Carey, Norwood Boulevard, Eleventh, Sixth, Sixth, Grant, Willow, Kirk, Beatrice, Water, Hamilton, Seventh and the market street.

Repaving railway tracks on Jasper avenue, Namayo and First street—Aggregate length of single track, 1890 feet completed.

Crossings—347 1/2 feet of six-foot crossing and 2,122 feet of four-foot crossings have been laid.

Side walks—The length of 884 1/2 feet of four-foot walk has been laid on Victoria, Carey, Norwood Boulevard, Eleventh, Sixth, Sixth, Grant, Willow, Kirk, Beatrice, Water, Hamilton, Seventh and the market street.

Repaving railway tracks on Jasper avenue, Namayo and First street—Aggregate length of single track, 1890 feet completed.

street grading has been completed with the exception of one, viz., Baldwin Hill street, now in progress. Water mains—Three and eight one-hundredth (3/8) miles of sewer mains have been laid in sizes ranging from 4 to 10 inches, the six-inch size predominating.

Water mains—Three and eight one-hundredth (3/8) miles of sewer mains have been laid in sizes ranging from 4 to 10 inches, the ten-inch size predominating.

Boulevards—Sixty-two hundred (6200) lineal feet of double boulevards have been completed with the exception of seeding and tree planting. Twenty-five hundred and fifty (2550) lineal feet more of double boulevard are in progress, about one-half completed.

Ald. Miller moved for a report from the commissioners to be presented at the next meeting on the exact state of affairs at the power house. He did not look forward with any degree of anticipation to conditions such as existed two years ago.

The commissioners reported the progress of public works as follows: City hall extension, 51 per cent. completed; but now delayed through negotiations with plasterers who threaten striking. No. 5 fire hall, 21 per cent. completed; new market office, 97 1/2 per cent. completed; power house extension and gas producer building awaiting steel 25 per cent. completed; power house, cable tower and culverts, awaiting steel, 15 per cent. completed; pump-house delayed by steel. It was estimated that completion will be effected two weeks after arrival of material. 50 per cent. completed; street car barn extension, 75 per cent. completed. The steel referred to is being furnished by the Edmonton Iron Works and the city engineer is anxious to believe that the delivery of the same would not be delayed much longer. The report was filed.

It was decided that the letter be filed. Ald. Garipey expressing indignation that a citizen of Edmonton should lower himself by writing such a letter.

Ald. Hyndman: "I move we resign in a body."

forced to conclude that Bishop Fallon held him responsible for it. He referred to it in a veiled manner as a statement made by him also touched on it in the conversation he had with the Toronto Star, when he said perhaps "office treachery," was responsible for the letter becoming public, while the one who leaked it was also touched on it by Bishop Fallon.

Later on an article appeared in a Toronto morning paper, and once again Mr. Maisonneuve was held responsible for it. It continued its attack on Bishop Fallon, and one who knows his Grace of London well states that he had a hearty laugh when he read it. The article went on to show that Bishop Fallon was "down on the French" with all his heart and soul. It showed him as one of the most powerful prelates in Canada, one who could switch things around whatever he felt like. The article stated that he was "fired" from Ottawa University because of his antagonism to the French, and that he started in to get revenge. It charged him with being the one responsible for Ottawa University getting a new rector, an Irishman; it said he alone was responsible for splitting up the Basque order, and having all the French priests in the order sent over to the United States, with the exception of a very few anaemic ones, who could do no harm if left in Canada, and finally, it charged him with being the one to blame for Bishop Gauthier of Kingston, an Irishman, being raised to the dignity of Archbishop of Ottawa.

The French wanted an archbishop of their own nationality, but Bishop Fallon had so much power at Rome that their desires and plans were balked. For all of which Mr. Maisonneuve is held responsible. Bishop Fallon laughs at all of the things he is credited with having brought about, and since none of them are facts, as his friends state, it seems to demonstrate that Mr. Maisonneuve is a man of quite vivid imagination.

What Will Resume Do? Now that he is no longer connected with Hca. Dr. Reaume, people are wondering where he is. Dr. Reaume is going to do about it. None of them are going to do about it. Dr. Reaume was not aware that Mr. Maisonneuve was being held in certain circles as the one responsible for the attacks on Bishop Fallon. Some of them even go so far as to say that he did it all the time and that he was even responsible for the inspired article.

"Both of them are of the same nationality. It is known that Mr. Maisonneuve is going to gain by attacking Bishop Fallon. There is no quarrel between them. Mr. Maisonneuve, then, evidently was acting as he did to help some one, and what individual was likely to be helped? It was his employer, Dr. Reaume. Take that for granted, and then Sir James Whitney and the whole Ontario government comes into the fray and he gets deep in politics," is the way it is pointed out to the Star.

"If Dr. Reaume knew what his secretary was doing it is to be presumed that he was not allowing Mr. Maisonneuve to take such a high-handed part without having discussed the matter with him. He is not a member of the cabinet, and now they are asking, since Sir James 'fired' Mr. Maisonneuve, for doing as he did, will he also demand the scalp of Dr. Reaume? It is not likely to keep his own and the party's skirts clean. Some say he will, and they are chuckling with glee to think that such astute politicians have been 'hoist with their own petard.' It certainly does look as if the lawmakers at Queen's Park had bitten off more than they can chew, when they started after Bishop Fallon for you can't convince me that Mr. Maisonneuve was doing anything long to find out who gave out that letter, did it."

"That, to my mind, just about proves conclusively that they were wrong in the way they were acting. Now that it is acting as a boomerang, and is hitting back at them, they get rid of Maisonneuve to clear themselves. I can't see, though, how the scheme is likely to work out, and how everything will be sealed tight by getting rid of the secretary. It seems to me that Dr. Reaume and the others ought to get real busy and show that they are not afraid of the consequences of their campaign, if they can." Such is the way another expressed himself.

The Political Advantage. "What political advantage could the Ontario government hope to gain, taking it for granted that others besides Mr. Maisonneuve are responsible for giving out that letter?" the newspaper man inquired.

"A double advantage," the informant stated. "The main one was for themselves and the other was for the Conservative party in Canada. This is the way I figure they worked it out. By attacking Bishop Fallon,

they hoped to draw attention away from what he has to say on the bilingual school question, and by setting him up as being 'down on the French,' they wished to show themselves as the protectors of the French in Ontario, and so make the French vote solid for all time for the Conservative party.

"In the same way they hoped to hurt the Liberal party in the whole of Canada by setting it up that the Catholic clergy is down on the French. The Catholic church is generally thought of as being quite favorable to Laurier, so you can easily see that were the French convinced that the church was down on them they would conclude the Liberal party is in league with them, and then the French throughout Canada would stop following Laurier's banner. Would they turn over to the Conservatives? That wasn't expected, at least not right away. What they hoped to do, though, was to cause a split in the Liberal ranks. Henri Bourassa has been crying for some time now that certain elements in the Catholic church are down on the French and that Sir Wilfrid Laurier is in league with them. It can easily be conceived then how, by spreading the same impression in Ontario, and by fostering it in Quebec, the Conservative party has hopes of splitting up the Liberal vote, and so getting into power between the two.

"Of course, there are others who say that the Conservative party never considered such a possibility as one apt to arise out of the Fallon-Irma episode, but you will never convince the others that such are the facts."

Everybody Glad Street Car Strike Was Averted Although So Closely.

NAME REPRESENTATIVES Both Sides Agreed to Arbitration on Suggestion of International Secretary.

Winipeg, Man., Oct. 19.—Satisfaction is expressed by both company and men today that the strike was so narrowly averted yesterday and just now the secretary of the international union is the most popular man in Winnipeg, for it was his timely intervention, advising recourse to the provisions of the Lemieux conciliation act which averted a bitter industrial war. Interested parties have received telegrams from the department of labor at Ottawa offering its services and it is expected that after a meeting of the men tonight, announcement will be made of the selection of their representative. The company will also name a man today and then there will remain the selection of a third man before the investigation can open.

THAT NEW LEAGUE There has been considerable difficulty and diversity of opinion in the attempts to reorganize the matter of association to replace the defunct Municipal Improvement League which met an untimely death at the meeting held in Houston's hall on Sept. 21, when the exclusion of ratepayers from membership was attempted. On Friday night, however, matters will reach a climax in the controversy when a public meeting will be held in the Separate school hall. There is a feeling of uneasiness among some who were connected with the old association, over developments, and fears are expressed that there is influence behind the promoters of the proposed new organization which would have its effect on the arrangement of the citizens' ticket for the approaching municipal elections, which is mentioned as one of the objects.

On Sept. 21 a committee was appointed to look into the advisability of organizing another association, and it met last Monday night, when the same trouble which characterized the previous meeting cropped up. Messrs. Perry and Perkins stood by their guns in an endeavor to have the committee recommend the organization of an association for property-owners only. They were overruled by a majority, however, and a resolution favoring an open association was passed, and a subcommittee appointed to draft a constitution and call a public meeting.

The fight will probably be renewed tonight on Friday, but the majority appear to approve of an association for ratepayers and property-owners alike. A. E. Potter will act as convener.

Minutes of a meeting called to or-
ganize an association for the main-
tenance and development of the Boys'
Brigade and Scouts held in All Saints'
school room Tuesday evening, Octo-
ber 18th, 1910. Present, His Honor
Lieut-Governor Huysa, Messrs. Mc-
George, Rice, Sackling, Majors Gries-
bach, Thibadeau, Capt. Carpenter,
Messrs. McCoppen, Lee, Mansell,
Watson.

The Lieut-Governor having taken
the chair, Archibald Gray then out-
lined the history of the Boy's Brigade
for the past six years and its future
possibilities with that of the Boy
Scouts and then moved the following
resolution: "That this meeting de-
claring the Boys' Brigade Cadets and the
Boy Scouts an organization worthy of
definite and permanent support does
herby resolve itself into an associa-
tion, to be called the Boys' Brigade
Cadet and Scout association, having
as its object the maintenance and de-
velopment of social and moral work
among young lads of this city, as from
time to time may be found advisable,
and that a provisional committee of
three members be chosen with power
to add to their number to take the
matter up and outline a scheme to
meet the present needs and future de-
velopment. The said committee to re-
port to a meeting to be held in All
Saints school room on Tuesday even-
ing, November 8. Major Griesbach
seconded the resolution, which after
some informal discussion was put to

the meeting and carried. Messrs.
Griesbach, Sackling and Watson were
named as a provisional committee to
take the matter in hand. The meeting
then adjourned.

**TO THE LADIES OF
EDMONTON**

The Toronto Fur Company, on their
second annual tour to Edmonton wish
to announce that they will have on
display for three days only, October

furs ever shown in Western Canada at
Toronto prices. Our stock includes a
large selection of this season's latest
creations in Sable, Seal, Ermine,
Mink, Fox, Persian Lamb, Russian
Pony and various other furs.
Parlor open from 10 a.m. until 10
p.m. The Toronto Fur Co., Toronto
and Winnipeg.

**BALL OF RUBBER WEIGHING
A TON.**

London, Oct. 18.—One of the most
interesting exhibits at the international
rubber and allied trades exhibition,
which opens at the Royal Agricultural
hall in June next, will be a rubber
ball weighing one ton and valued at
\$3,620.

**THE TWO EPISODES OF AR-
TEMUS WARD**

Artemus Ward (Charles Brockton
Drowne) was not only a humorist but
a philosopher, and his humor often
expresses more in a sentence than a
philosopher could in an essay. By an
absurd presentation he ridiculed
absurdity, making his humor an ef-
fective weapon against those oppo-
nents whose doctrines needed only to
be exposed to become ridiculous. His
great strength, however, lay in his
presentation of the commonplace in
his droll humorous way. For exam-
ple: There was a recent arrival in Mr.
Ward's home: friends were smoking
his cigars and offering him congratu-
lations; a lady, wishing to preserve
her formality, said, "Mr. Ward, this
is quite an episode." "Yes," replied
Ward, "Two episodes in fact. Twins,
marm, twins." There are "Two Epis-
odes in 'A Bachelor's Honeymoon.'"
Twins, marm, twins. You laugh at
them and at the bachelor. And when
it is all over, you want to take them
with you, the twins in "A Bachelor's
Honeymoon," at the Empire Theatre
on October 20, 21, and 22.

Don't Fail to Come - Bring Your Friends

Contractors, Attention!

Our new electric floor surface smooths, sandpapers and polishes
hard wood and soft wood floors, and does as much as six good men.
It's still better on Terrazzo floors. If you want to repolish an old
floor try it with the brushes that go with it and see the wonderful
results. Moderate rental per day.
